

# Mcebo Samuel Xaba

## DEVELOPER

I enjoy being challenged and engaging with projects that require me to work outside my comfort and knowledge set, as continuing to learn new languages and development techniques are important to me and the success of your organization. I have a passion for all things that involve technology. I like to automate, and I'm driven by the constant need to improve. I like to play with new technologies. Learning by doing is fun, and teaching by example is how it's meant to be.

## EDUCATION

2015

### Matric (Fumana Comprehensive School)

English (FAL), Mathematics, Information Technology, Life Orientation, Economics and IsiXhosa (Home Language)

2019 - 2019

### Udacity (AI Programming with Python)

I learnt the essential foundations of AI: the programming tools (Python, NumPy, PyTorch), the math (calculus and linear algebra), and the key techniques of neural networks (gradient descent and backpropagation).

## WORK EXPERIENCE

FEB 2019 - JUNE 2019

### WeThinkCode\_

We were required to do AirBnB\_clone project using MEAN STACK. I did the back-end part of which we were using MongoDB for our database and nodejs for app engine.

AUGUST 2019 - TO-DATE

### Uzuri-Afrika

REST API design and development in python flask framework, querying data from firebase to obtain data into the API layer.

## REFERENCES

THULANI NYAMA (083 516 6484)

### WeThinkCode\_

We were working together on that project and he was the one who was managing the team.

LWANDILE MAKHASI (083 550 5150)

### Uzuri-Afrika

Manager and founder of the company.

## CONTACTS

 750 Phadima Rd, Nadustria, 1431
